

**SAC-CLASSIFICATION**

- **STRAIGHTFORWARD**
- **ADVANCED**
- ◆ **COMPLEX**

TARGET GROUP

Dental Surgeons, (implanting) Dentists,
Dental Technicians

LANGUAGE

ENG

SPEAKER

Javier Pérez López

DATE

Thursday 06.06.2013

DURATION

19h30 till 21h30

LOCATION

Van Der Valk Hotel Brussels Airport
Culliganlaan 4b
1831 Diegem

COURSE FEE

Free for ITI-Fellows and
ITI-Members

INCLUDED

Course materials,
Coffee & tea
Closing drink

MAX. PARTICIPANTS

50

REGISTRATION

ITI Section Belgium
PO BOX 10150
1930 Zaventem
Tel. 02 790 10 00
Fax. 02 790 10 20

ITI Theme Night: Aesthetic integration: Restorative procedures and key for success

Currently, the combination of technical knowledge and aesthetic concepts is a strategy to enable restorative procedures to be integrated into the patient care, from both an aesthetic and functional perspective.

The high expectations of patients must make us reflect on the technique and materials we use in each particular case. Focusing on the anterior region and analysing simultaneously white aesthetic (restoration) and pink aesthetic (soft tissue).

We will analyse from the restorative perspective the fundamental aspects needed to reach an aesthetic integration:

- Emergency profiles and gingival architecture (bone level and tissue level)
- Anatomy: Shape, colour value and translucency
- Abutments selection (Zi, Cares, etc..)
- Screwed, cemented, custom abutments (Au, zi)
- Restorative materials (Metal-ceramic, zirconium, Press ceramic)
- Cad-cam technology (CARES)

Directions, applications and how this technology can help us to improve our final restoration in daily practice.

The interaction of these factors mean that each case needs to be treated individually in order to obtain a predictable protocol to all cases and achieve our goal: Aesthetic integration.

Objectives :

- How new materials and technology can improve our restorative procedures
- Integration between Pink and White aesthetics
- Handling and design of the emergence profile from the prosthetic point

**JAVIER PÉREZ LÓPEZ****PERSONAL HISTORY**

Birth date: March 02. 1969 Sarria (Lugo) Spain

PRESENT POSITION

- Dental technician by Santa Apolonia school in Santiago de Compostela, Spain
- Postgraduate on implant prosthesis
- Laboratory director "Técnica Dental Studio VP Javier Pérez López" specialized in aesthetics and implant prostheses
- Collaborating professor at the University of Santiago de Compostela
 - o *Master Program of Periodontology and Implants*
 - o *Postgraduate program of Oral surgery and implantology*
- Collaborating professor at the University of Sevilla:
 - o *Master Program of Periodontology and Implants*
- Dental Dialogue (Spanish Edition) - Member of the editorial board –
- Author of several articles in the field of implantology and aesthetic dentistry
- Member of the Internacional Oral Design Center
- Member of the Dental Excellence Laboratory Group
- ITI Fellow
